

Goals

- **Is it acceptable for one or two team members to do more work than the others in order to get the team an A?**

Yes, but all of us want to do well, so we do not see this as a big issue.

Meeting Norms

- **How will you use the in-class time?**

We will use in-class time to review the work that we've done, discuss the design of work to be done, and plan out what we want done by the next class time (or the next time that we meet).

Work Norms

- **How will work be divided among team members?**

Work will be divided according to the following Latin square:

	Core ADTs	Console UI	Web UI
Specs	Cynthia	Helen	Angela
Tests	Angela	Cynthia	Helen
Code	Helen	Angela	Cynthia

- **Where will you record who is responsible for which tasks?**

In this contract and our Facebook group chat :) and in our commit messages.

- **How will deadlines be set?**

We will set deadlines every class period for what we want done next. We will try to finish our work ahead of time.

- **How will the work be reviewed?**

We will review each other's code after completing our respective portions.

Helen Ho
Angela Lin
Cynthia Zhou
